# Don't be alarmed... it's just the CIA!!

---

---

Dear Resident,

The bad news is that you have cane toads in your area, as you are no doubt aware.

The good news is that CIA (Conservation In Action) Landcare volunteers and NPWS staff will be visiting your area over summer in an attempt to make a dent in the number of these horrible pests.

So, you may see cars driving slowly by with torches scanning the area. You will also hopefully see people in shiny vests walking along the road with a handful of cane toads!

Please rest assured that no person will enter on to your property without your express permission and every effort will be made to reduce spotlight intrusion around your home. Thank you for your understanding and feel free to come and join us!

If you wish to discuss these cane toad operations further or would like to report cane toad sightings or your own toad control efforts, please call either:

Jeff Thomas  
NPWS Pest Mgmt Officer  
Ph: (02) 6641 1500, or

Sharon Lehman  
CIA Coordinator  
Ph: 0411 020 394

Or email [toads@cvcia.org.au](mailto:toads@cvcia.org.au)
